

VK DSA SHEET

Master Patterns. Solve Problems. Level Up.

The only free, open-source DSA practice sheet that unifies LeetCode, GeeksforGeeks, TakeUForward and Codeforces — organized by pattern, with built-in progress tracking and a personal knowledge base.

vk-dsa-hub.netlify.app

React + Firebase + Vercel

THE PROBLEM

Every platform promotes its own sheet

Students bounce between four or five sites with no single place to track progress — and none of them think in patterns.

	LeetCode	HAS Huge question bank	MISSING No pattern roadmap, no cross-platform tracking
	TakeUForward	HAS Striver's SDE Sheet	MISSING Limited to their own curated list
	GeeksforGeeks	HAS Topic-wise problems	MISSING No unified progress tracking
	Codeforces	HAS Competitive problems	MISSING No structured DSA sheet at all

THE IDEA

One place for everything a DSA journey actually needs

No website combined LeetCode, GFG, TUF and Codeforces with pattern names and a real progress tracker. So this was built.

- All patterns, not just topics
- Questions from every major platform
- Separate Completed vs Revise tracking
- A personal bookshelf
- Saved links & editorials
- Personal notes per topic
- A calendar of practice history
- Easy / Medium / Hard breakdown

16 pattern categories, not just topics

Each pattern breaks down further into sub-patterns — e.g. Arrays → Traversal, Rotation, Kadane's Algorithm — with problems pulled from every platform.

 01 Arrays	 02 Binary Search	 03 Strings	 04 Bit Manipulation
 05 Linked List	 06 Two Pointers	 07 Sliding Window	 08 Stacks & Queues
 09 Greedy Algorithms	 10 Heaps	 11 Binary Trees	 12 BST
 13 Graphs	 14 Tries	 15 Dynamic Programming	 16 + More Added Regularly

Know exactly where you stand

Completion Tick

Mark any question done the moment you solve it.

Revision Tick

A separate flag for problems that need a second pass.

Difficulty Counter

Live Easy / Medium / Hard split across the whole sheet.

Beats Percentage

See how your pace compares to other solvers.

Array Traversal

5 / 16 solved

A calendar and a personal knowledge vault

Practice Calendar

GitHub-style streak tracking with a full monthly view and a detailed daily practice history.

S	M	T	W	T	F	S
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

Search

Instantly find any pattern or question.

Books

A shelf for recommended reads plus your own favourites.

Links

Save YouTube videos, articles and editorials for later.

Notes

Write personal notes against any topic or problem.
